- 9 We will enhance your brand
- 10 Our future is assured.

PREMIER PENSIONS MANAGEMENT

Established in June 2003 to challenge the status quo and offer a different approach to pension plan management, Premier Pensions Management has quickly established a reputation for first class service, innovative ideas and a willingness to work alongside other firms of advisers to ensure that clients' needs and expectations are met.

Premier Pensions Management focuses on what clients actually need and our operating costs are controlled to ensure that we can offer competitive fee rates.

Established as a pensions consultancy working with corporate and trustee clients, large and small, client demand has led to a comprehensive service offering now including actuarial advice, pensions administration, risk benefits broking, contract based pensions and individual financial planning.

In addition, we are able to offer the full range of pension plan services by working with our partner organisations covering investment, legal and communications advice.

Premier Pensions Management can work on a specific short term assignment and/or work with you in the long term management of your pension plan.
